JINK Battery Transport Documentation

TQ-TA42 · 7.4V · 4200mAh · 31.08Wh

Scope: the stated battery model and packing configuration with H8P locks. Applicability to batteries and packaging supplied with other JINK locks has not been established.

Document	Reference / status
2026 sea classification	SEKGZ202512285380GA480001; 2026-01-01 - 2026-12-31
2026 air classification	PEKGZ202511295111AG360001; 2026-01-01 - 2026-12-31
SDS CN / EN	262640102942; 2026-01-01

Public wording

Battery transport documents apply by battery model, packaging and transport mode. Refer to the full original conditions and carrier requirements for shipping decisions. Transport classifications and SDS are not FCC, CE or RoHS certifications of the complete lock. This is an information disclosure; original files remain internal.

Identifiers are retained for traceability. This disclosure is not a reissued laboratory transport document; use the complete original conditions for shipment decisions.
